

## R. CRAIG BATTERSON, P.E.

Mr. Batterson is a Senior Professional Engineer with 40+ years of progressive experience as a professional engineer and an engineering manager with a wide breadth of experience in the civil and environmental engineering fields. As the former President and CEO of a 90 person full service consulting engineering and surveying firm, he is skilled in all levels of administration, budget preparation and business planning. He has completed an array of environmental and civil engineering projects throughout Florida. His assignments have encompassed land planning, infrastructure design, wetland mitigation, permitting, and utility financing, expansion, and operations. Mr. Batterson has specialized experience in the area of right-of-way acquisition and eminent domain; and has assisted local governments and the FDOT on the acquisition of over 800 parcels. He is qualified as an expert witness in the areas of civil engineering and land planning, utilities, land development, storm water design and environmental permitting.
